SAFETY DATA SHEET

SECTION 1 – PRODUCT IDENTIFICATION

1.1 PRODUCT IDENTIFIER

Emulsifying Wax NF - Pastilles

1.2 RELEVANT USAGE OF ITEM

Raw material for cosmetic formulations

1.3 Supplier Information

Raw Essentials

Contact: 6610 2858

Email: contact@rawessentials.com.sg

SECTION 2 – HAZARDS IDENTIFICATION

Not classified as a dangerous material and not subjected to labelling requirements.

Contact with molten wax may cause thermal burns.

SECTION 3 – FIRST AID MEASURES

Upon inhalation: If respiratory symptoms occur due to exposure to fumes emitted by molten material, seek medical attention immediately.

Upon ingestion: Solid state is not acutely toxic. If molten state is ingested, seek medical attention immediately.

Upon contact with eyes: Rinse out with water for at least 15 minutes, and seek medical attention if symptoms persist.

Upon contact with skin: For contact with molten material, leave on skin and rinse thoroughly with cold water. Seek medical assistance if symptoms persist.

SECTION 4 – FIRE-FIGHTING MEASURES

4.1 Extinguishing Media

Recommended to use dry chemical, foam, and sand.

4.2 Advice and Precaution for Fire-Fighters

As in any fire, wear full protective gear with self-contained breathing apparatus

4.3 Accidental Release Measures

Material may burn but will not ignite readily.

Isolate danger zone and keep unauthorized personnel away.

Contain spill if it can be done with minimal risk, wear appropriate protective equipment.

SECTION 5 – HANDLING AND STORAGE

Wash thoroughly after handling.

Store in closed containers in cool, well-ventilated area, away from direct sunlight.

Keep away from heat sources, sources of ignition, and incompatibles such as strong oxidizers.

Keep away from heat, sparks, or open flames.

Do not eat, drink, and smoke while handling.

SECTION 6 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Handle in accordance with good hygiene and safety practices.

No special respirator needed.

When in molten form, wear proper eye shield and suitable resistant gear.

SECTION 7 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	White pastilles
Color:	White to off-white
Odour:	N/A
Solubility:	Insoluble in water
pH:	N/A
Specific Gravity at 20°C:	1g/ml
Melting Point:	50°C to 55°C
Flash Point:	400°C

SECTION 8 – STABILITY AND REACTIVITY

8.1 Reactivity

Stable material that is unlikely to react in hazardous manner under normal conditions.

8.2 Chemical Stability

Stable under normal conditions, however, do avoid strong oxidizing agents.

8.3 Possibility of Hazardous Reaction

Avoid strong oxidizing agents.

SECTION 9 – TOXICOLOGICAL INFORMATION

Overexposure may cause nasal and throat irritation.

Not expected to be an eye irritant, and no harmful effects from skin absorption.

Distress may be expected if ingested in large quantities.

SECTION 10 – ECOLOGICAL INFORMATION

The packaging components are compatible with conventional solid waste management practices.

No information on other adverse effects.

Bioaccumulation is not expected.

Product is readily biodegradable.

SECTION 11 – DISPOSAL CONSIDERATION

Dispose in accordance with all local and national regulations.

Do not contaminate ponds, waterways, or ditches.

Do not reuse containers.

SECTION 12 – TRANSPORTATION INFORMATION

Not restricted for transportation purposes.

SECTION 13 – DISCLAIMER

All information provided in this SDS is correct to the best of our knowledge at the time of its publication. The information serves only as a guide for usage, processing, storage, safe handling, transportation, and disposal. It is not a warranty or quality inspection. The information is only applicable to the specific material designated and may not be valid when the material is used in combination with any other material or in any process, unless specified in this document.
